# TRAVEL SAFETY FOR WOMEN

PREVENTING RISKY SITUATIONS

# Get to know your destination - act safely

The role of women in a culture and their place in society varies from region to region in the world. This is accompanied by different expectations regarding her appearance and behavior. The often physical inferiority is also a risk factor for women. Traveling women are therefore exposed to additional challenges. With this e-learning, we show you how you can best prepare for these gender-specific challenges, how to deal with them locally and what to do in an emergency.
